DETAILED ACTION

Acknowledgements

This Office Action is in response to preliminary amendments filed on June 8, 2005.

Claims 1-18 are currently pending and have been restricted.

Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-9, drawn to protection of distributed data between server and client.

Group II, claim(s) 10-13, drawn to a server for encoding content.

Group III, claim(s) 14, drawn to a server for transmitting.

Group IV, claim(s) 15, drawn to a server for two-way communication.

Group V, claim(s) 16-18, drawn to a content rendering and presentation.

The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: a common technical link of utilizing base layer and enhancement layer is found among the five groups. However, this technical link is disclosed in prior art (see Abstract of Demos, U.S. Patent No. 6,957,350), and is not consider to be a

contributing special technical feature. The groups lack unity of invention.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
